

OFFICIAL OPENING BY KELANTAN'S CHIEF MINISTER OF NEWLY BUILT CARBON-IN-LEACH PLANT

The board of directors of CNMC Goldmine Holdings Limited (the “**Company**” or “**CNMC**”) is pleased to announce that Kelantan Chief Minister YAB Ustaz Dato’ Bentara Kanan Haji Ahmad Bin Yaakob today officiated the opening of the Company’s newly built carbon-in-leach (“**CIL**”) processing plant at its flagship Sokor gold mine in Malaysia’s Kelantan state.

Located at CNMC’s flagship Sokor gold field in Kelantan, the CIL plant was completed in six months within a budget of RM25 million. It produced its first gold bar from trial operation in March this year.

The CIL plant is the Company’s third production facility at the Sokor gold field. It can process approximately 500 tonnes of ore per day and boasts a gold recovery rate of up to 95% compared to approximately 65% for CNMC’s heap leaching plant, which has been the Company’s main production facility since 2012.

By Order of the Board

Lim Kuoh Yang
